Num. obs.	1482	1482	1481	1482	1482	1482	1482	1482
RMSE	1.12	1.14	1.19	1.03	1.09	1.10	1.16	1.08

Notes: $^*p < 0.05$;$^+ p < 0.10$

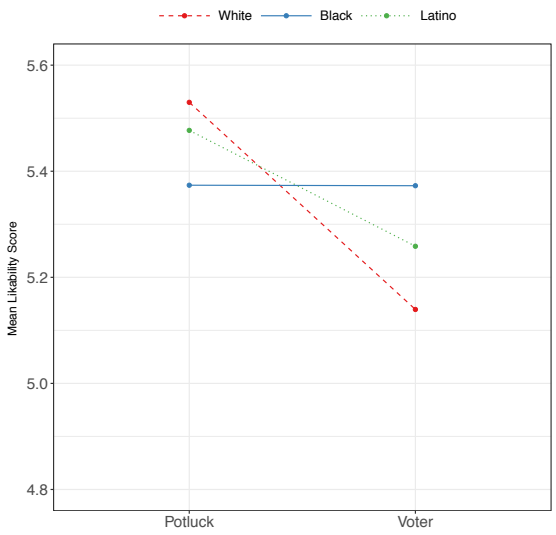
Table A2: Testing for Carry-Over Effects

	First Appearance Mean	Aggregate Mean
Voting		
Likability	5.26	5.28
Respectability	5.48	5.44
Rally Attendance		
Likability	4.90	4.97
Respectability	5.15	5.16

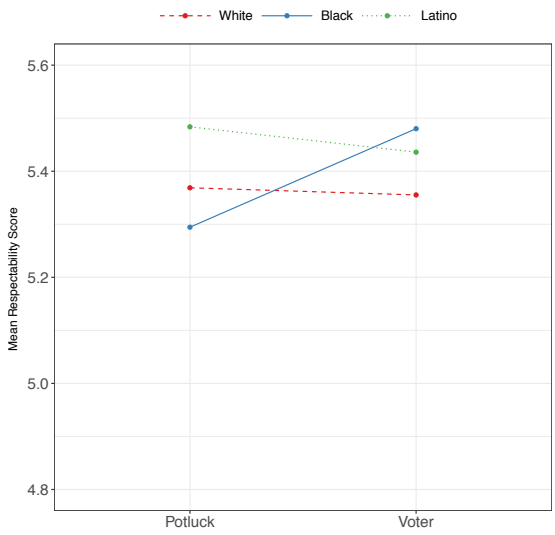
Notes: In all categories, the first appearance mean does not prove statistically different than the aggregate mean ($p<0.05$) when tested using a two-sided t-test.

Figure A1: Raw Scores for Experimental Measures Across Racial Groups

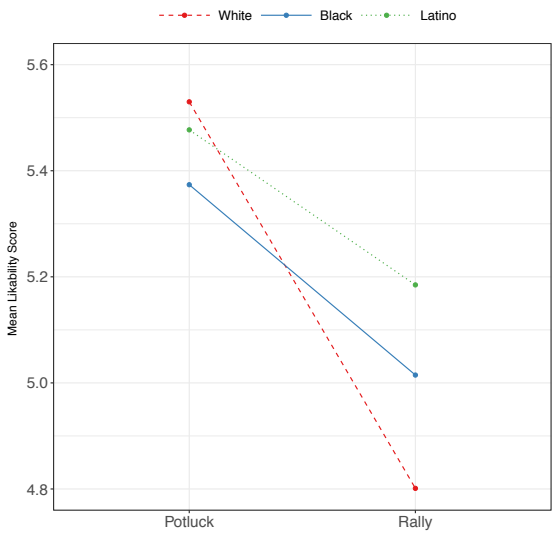
(a) Effect of Voting on Likability



(b) Effect of Voting on Respectability



(c) Effect of Rallies on Likability



(d) Effect of Rallies on Respectability
