

Domnich, I. and Evenden, M. 2026. The status of agricultural entomology extension in Alberta, Canada: perspectives of extension professionals and development of a map to virtual extension tools. *The Canadian Entomologist*, **158**: e2610008.

**Supplementary material, Figure S2.** A Pearson correlation heatmap generated using Jamovi software (<https://www.jamovi.org>). The map shows correlations between the items in the Likert-scale question about factors and priorities in extension. Pearson correlation  $r$ -values are indicated in the boxes, with darker-coloured boxes indicating higher levels of significance. Item names are shortened for visualisation.
