

Online Resource Table 13. Cross-tabulation of Change Groups Based on Item Response Theory (columns) and Classical Test Theory (rows) Standard Errors for Simulated Physical Function Change From 0 to 3 Theta

Item Response Theory				
Classical Test Theory	Worse	Same	Better	Total
Worse	0 (100%)	0	0	0
Same	0	9,932 (100%)	0	9,932
Better	0	68	0 (0%)	68
Total	0	10,000	0	10,000
