Asset0001		Asset0001	
Museum Inventory N°	75:322b	Decoration description	Three main motifs consisting of two-lined incised meandriform bands. Each motif is separated by a wide vertical engraved line extending from rim to base with a knob or handle placed at mid-height
Site	Eisleben, Central Germany		
Context	Ditch		
Archaeological style	Linienbandkeramikkultur		
Type	LBK 1		
Type chronology	5500 BCE - 5250 BCE	Shape description	Globular vessel (Kumpf) with a retracted rim and a rounded base
Phase	1	Height	10.4
Phase absolute dates	5500-5250 BCE	Rim diameter	14.9
		Base diameter	
		Reference for the typology	Schwarz 2021b, p. 51
		Reference for the asset	Schwarz 2021b, p. 51, 1

Asset0002		Asset0002	
Museum Inventory N°	8973	Decoration description	Large main motif consisting of an two-lined incised and spiraled band
Site	Merseburg, Central Germany	Shape description	Spherical cup with a straight rim and a rounded base
Context	Settlement	Height	8.75
Archaeological style	Linienbandkeramikkultur	Rim diameter	10.5
Type	LBK 2	Base diameter	8.75
Type chronology	5250 BCE - 4950 BCE	Reference for the typology	Schwarz 2021b, p. 51
Phase	1-2	Reference for the asset	Schwarz 2021b, p. 51, 3
Phase absolute dates	5500-5000 BCE		

Asset0003	
Museum Inventory N°	36:137b
Site	Dammendorf, Central Germany
Context	Settlement
Archaeological style	Linienbandkeramikkultur
Type	LBK 4a
Type chronology	5250 BCE - 4950 BCE
Phase	2-3
Phase absolute dates	5250-4750 BCE

Asset0003	
Decoration description	Large two-lined incised spiral motif (main motif) filled with two rows of dotted stitches (secondary motif), and two rows of dotted stitches below the rim
Shape description	Pear-shaped cup with a thickened vertically protruding rim and rounded base
Height	7.2
Rim diameter	9
Base diameter	6
Reference for the typology	Schwarz 2021b, p. 51
Reference for the asset	Schwarz 2021b, p. 51, 7 Kaufmann 1976

Asset0004		Asset0004	
Museum Inventory N°	18:475		
Site	Helmsdorf, Central Germany	Decoration description	Two-lined bands with fans at the spiral ends (main motif), a single row of dotted stitches below the rim (secondary motif) and vertical single row of stitches separating main motif
Context			
Archaeological style	Linienbandkeramikkultur	Shape description	Globular vessel (Kumpf) with a weak vertically protruding rim and a rounded base
Type	LBK 4b		
Type chronology	5250 BCE - 4950 BCE	Height	8
Phase	3	Rim diameter	7.5
Phase absolute dates	5000-4750 BCE	Base diameter	
		Reference for the typology	Schwarz 2021b, p. 51
		Reference for the asset	Schwarz 2021b, p. 51, 8

Asset0005		Asset0005	
Museum Inventory N°	19:1165	Decoration description	Large zig-zag pattern of horizontally-running dotted stitches with six rows of dotted stitches below the rim
Site	Erfurt, Central Germany	Shape description	Spherical cup with a straight rim and a rounded base
Context		Height	16.5
Archaeological style	Stichbandkeramikkultur	Rim diameter	11
Type	SBK 2a	Base diameter	
Type chronology	5000 BCE - 4600 BCE	Reference for the typology	Schwarz 2021b, p. 51
Phase	3-4	Reference for the asset	Butschkow 1935 Schwartz 2021a, p. 56, 6 Rothe1996
Phase absolute dates	5000-4500 BCE		

Asset0006	
Museum Inventory N°	31:267
Site	Hindenburg, Central Germany
Context	Grave
Archaeological style	Rössen Kultur Salle-Gruppe
Type	RSK-SG 2
Type chronology	4600 BCE - 4450 BCE
Phase	4-5
Phase absolute dates	4750-4250 BCE

Asset0006	
Decoration description	Undecorated
Shape description	Spherical vessel with a sharp belly break, a curved neck and a horizontally protruding rim
Height	11.6
Rim diameter	11.5
Base diameter	9.3
Reference for the typology	Schwarz 2021b, p. 58
Reference for the asset	Schwarz 2021b, p. 58, 12 Schuchardt, Schumacher, Seger 1910

Asset0007	
Museum Inventory N°	20:529
Site	Egeln, Central Germany
Context	Single find
Archaeological style	Gaterslebener Kultur
Type	GLK 1a
Type chronology	4450 BCE - 4000 BCE
Phase	5
Phase absolute dates	4500-4250 BCE

Asset0007	
Decoration description	Undecorated
Shape description	Three-part beaker with an angular break dividing a convex bottom with a flat base and a concave upper portion
Height	10.9
Rim diameter	7.6
Base diameter	4.6
Reference for the typology	Schwarz 2021b, p. 61
Reference for the asset	Schwarz 2021b, p. 61, 2 Rothe 1996

Museum Inventory N°	28:28b
Site	Goddula, Central Germany
Context	Grave
Archaeological style	Gaterslebener Kultur
Type	GLK 2
Type chronology	4450 BCE - 4000 BCE
Phase	5-6
Phase absolute dates	4500-4000 BCE

Asset0008	
Decoration description	Two vertically oriented handles with a single perforation
Shape description	Three-part beaker with an angular break dividing a convex bottom with a flat base, a concave upper body, and a convex neck and rim
Height	15
Rim diameter	12.6
Base diameter	6.6
Reference for the typology	Schwarz 2021b, p. 61
Reference for the asset	Schwarz 2021b, p. 61, 4

Asset0009	
Museum Inventory N°	16:1985
Site	Achersleben, Central Germany
Context	Grave
Archaeological style	Baalberger Kultur
Type	BAK 1a2
Type chronology	4000 BCE - 3500 BCE
Phase	7-8
Phase absolute dates	4000-3500 BCE

Asset0009	
Decoration description	Three vertically oriented handles with a single perforation at the shoulders
Shape description	Shouldered amphora with a straight and long neck
Height	14.25
Rim diameter	6.6
Base diameter	5.75
Reference for the typology	Schwarz 2021b, p. 67
Reference for the asset	Schwarz 2021b, p. 67, 2

Asset0010	
Museum Inventory N°	16:302a
Site	Wengelsdorf, Central Germany
Context	Single find
Archaeological style	Baalberger Kultur
Type	BAK 2
Type chronology	4000 BCE - 3500 BCE
Phase	8-9
Phase absolute dates	3750-3250 BCE

Asset0010	
Decoration description	The upper portion of the shoulders is decorated with a pattern of several rows of horizontal incised pairs of bands from the middle of the belly to the neck. These patterns are connected by two rows of vertical incised pairs of bands. There is also a single row of vertical incisions below the rim. There are four vertically oriented handles with a single perforation at the maximum diameter of the belly.
Shape description	Amphora with a pronounced belly and a straight long neck
Height	17
Rim diameter	9.6
Base diameter	4.6
Reference for the typology	Schwarz 2021b, p. 67
Reference for the asset	Schwarz 2021b, p. 67, 4 Rothe 1996

Asset0011		Asset0011	
Museum Inventory N°	24:283		
Site	Brachwitz, Central Germany		
Context	Grave	Decoration description	Small incised band in zig-zag alternating with groups of vertical line strokes. A long and wide handle extends from the beginning of the neck to the rim of the vessel.
Archaeological style	Salzmünder Kultur	Shape description	Jug with a bulbous body and a long neck
Type	SMK 2	Height	9
Type chronology	3400 BCE - 3100 BCE	Rim diameter	4.5
Phase	9-10	Base diameter	3.5
Phase absolute dates	3500-3000 BCE	Reference for the typology	Schwarz 2021b, p. 69
		Reference for the asset	Schwarz 2021b, p. 69, 2 Rothe 1996

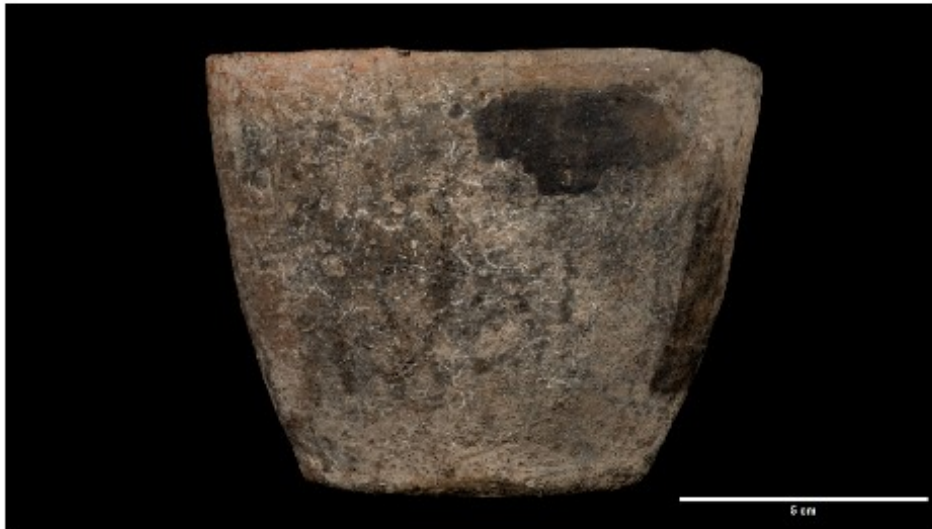

Asset0012	
Museum Inventory N°	4864
Site	Walternienburg, Central Germany
Context	
Archaeological style	Walternienburg Kultur
Type	WBK 1
Type chronology	3500 BCE - 3100 BCE
Phase	9-10
Phase absolute dates	3500-3000 BCE

Asset0012	
Decoration description	Pattern of furrowed stitch lines and angled bands (Winkelbänder)
Shape description	Three-part cup with lower biconical body, a conical neck, and a flat base
Height	17
Rim diameter	22
Base diameter	8
Reference for the typology	Schwarz 2021b, p. 72
Reference for the asset	Schwarz 2021b, p. 72, 1 Reuss 1907

Asset0014	
Museum Inventory N°	49:448c
Site	Tangermünde-Süd, Central Germany
Context	
Archaeological style	Elb-Havel-Kultur
Type	EHK 1
Type chronology	3300 BCE - 2800 BCE
Phase	9-10
Phase absolute dates	3500-3000 BCE

Asset0014	
Decoration description	Grid pattern of lines of stitches extending from below the rim to the vessel's lower body, and two horizontally oriented flat lugs with a pair of perforations
Shape description	Two-part cup with a convex bottom, a concave upper portion, and a flat base
Height	10.8
Rim diameter	12.2
Base diameter	13.4
Reference for the typology	Schwarz 2021b, p. 78
Reference for the asset	Schwarz 2021b

Asset0015	
Museum Inventory N°	31:520
Site	Achersleben, Central Germany
Context	Grave
Archaeological style	Bernburger Kultur
Type	BBK 1
Type chronology	3300 BCE - 2800 BCE
Phase	10-11
Phase absolute dates	3250-2750 BCE

Asset0015	
Decoration description	A thick handle extends from middle portion of the vessel's body to its bottom
Shape description	Flared cup with a flat base
Height	9
Rim diameter	12
Base diameter	7
Reference for the typology	Schwarz 2021b, p. 76
Reference for the asset	Schwarz 2021b

Asset0016		Asset0016	
Museum Inventory N°	13940		
Site	Unknown		
Context			
Archaeological style	Bernburger Kultur	Decoration description	Patterns of linear bands and angular or zig-zagged incised and furrowed lines extending from the body towards the lower portion of the vessel. A single thick handle extends from the middle portion of the vessel's body to its bottom
Type	BBK 2a		
Type chronology	3300 BCE - 2800 BCE	Shape description	Cup with a convex profile
Phase	11	Height	11.9
Phase absolute dates	3000-2750 BCE	Rim diameter	10.6
		Base diameter	8.2
		Reference for the typology	Schwarz 2021b, p. 76
		Reference for the asset	Schwarz 2021b, p. 76, 1

Asset0017		Asset0017	
Museum Inventory N°	50:706a	Decoration description	Pattern of horizontal zigzag lines formed from U and V-shaped stitches extending through out the vessels conical upper body. A thick vertically oriented handle extends from the middle to lower portion of the vessel's body.
Site	Tangermünde-Süd, Central Germany		
Context	Grave		
Archaeological style	Elb-Havel-Kultur		
Type	EHK 3		
Type chronology	3300 BCE - 2800 BCE	Shape description	Two-part jug with a globular bottom and a long conical upper body
Phase	10-11		
Phase absolute dates	3250-2750 BCE		
		Height	18.3
		Rim diameter	13.7
		Base diameter	6.8
		Reference for the typology	Schwarz 2021b, p. 78
