Acknowledgements

The authors are grateful to the Director of CSIR-National Botanical Research Institute (CSIR-NBRI), Lucknow for providing the necessary facilities to conduct this work; and to Heads of University of Agricultural Sciences (Gandhi Krishi Vignan Kendra), Bangalore, (Karnataka), Deendayal Research Institute, Chitrakoot, Madhya Pradesh, Indira Gandhi Krishi Vishwa Vidyalaya, Raipur, Chhattisgarh and Botany Department, Gujarat University, Ahmedabad, Gujarat for their help and support during plant collection. AL is grateful to the University Grants Commission [UGC-National Fellowship (F1-17.1/2013-14/RGNF-2013-14-SC-UTT-52795)] for the award of a fellowship to perform her research work. This manuscript has an institutional communication number: 'CSIR-NBRI-MS/2022/10/04'.

Author's contributions

AL, AK and JC performed the experiments and AL prepared the manuscript and analyzed the data; MP and KNN helped in critical revision and final approval of the manuscript; KNN, HKY and MP formulated the original research plans, supervised the research and revised and finalized the manuscript. All authors have read and approved the manuscript.

Funding statement

This work was supported by the financial support from the University Grants Commission-National Fellowship (F1-17.1/2013-14/RGNF-2013-14-SC-UTT-52795) to the first author (AL).

Competing interest

The authors declare none.
