

# Clinical Attachment in Psychiatry for International Medical Graduates

A Clinical Attachment/Observer's post is an unpaid, short term placement for a qualified doctor who needs experience of the NHS.

This is helpful for overseas doctors to gain experience of the UK Culture and work in NHS, for preparation of clinical part of MRCPsych exams, to explore special interest in this specialty/subspecialty and aid career choice.

The aim of this survey is to gauge interest in Clinical Attachment posts to guide the development of a clear pathway for access to these posts in the NHS and its impact to enhance recruitment and retention of doctors.

\* Indicates required question

## Section 1 - About You

This information will be used to identify if there is a specific demographic of doctors who this attachment appeals to.
