Supplement 1. Species frequencies per site and language area as number of identified specimens (NISP) and minimum number of individuals (MNI).

Supplement 2. Reindeer age estimations per site and language area based on tooth eruption and wear (Miller 1974; Nieminen *et al.* 1981). Data from Viddjavárri is missing.

Supplement 3. Reindeer skeletal frequencies per site and language area as number of identified specimens (NISP) and minimum number of elements (MNE).

Supplement 4. Radiocarbon dates of bone samples. Calibrated with OxCal 4.2. (Bronk Ramsey 2009), atmospheric data from Reimer *et al.* 2013.
