Psychosis	Referred by (Name): _____												
<p>Since a few months, some changes can be seen in Prakash's behavior. He thinks of himself as a very powerful and superior being. He tells everyone that he can do things that others cannot do. He keeps talking weird things and monotonously and during such times, even if his family members or neighbors ask him to stop, he doesn't stop. He says that while he is sitting alone or when there is no one around him, he hears voices that are talking or calling to him. He has slowly stopped showing interest in the household and community activities that he is supposed to do. Due to such behavior, he had to stop the work he was doing. Often he just wanders around the town, not washed and looking very dirty. Prakash seems like a different person now.</p>	<input type="checkbox"/> Teacher <input type="checkbox"/> Mother's Group <input type="checkbox"/> Traditional Healer <input type="checkbox"/> FCHV
