F, female; M, male.

1. Outcome codes: 0=no effect; 1=partial remission; 2=full remission; 9=non-adherence with medication or refusal to take the substance; 8=effect of medication cannot be estimated, e.g. if multiple substances were used.

2. Patient 73 was not included in the analysis because it is unknown which substance was used.

3. For patients 68 and 86 the second substance was taken for analysis.
