

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

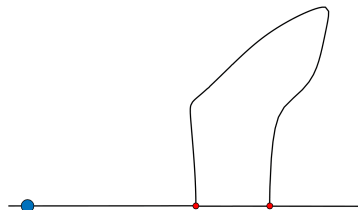

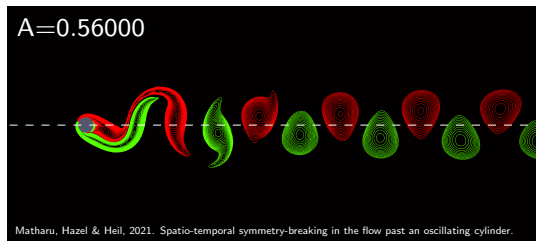

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

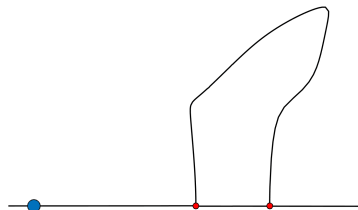

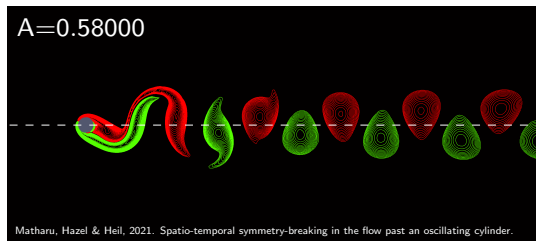

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

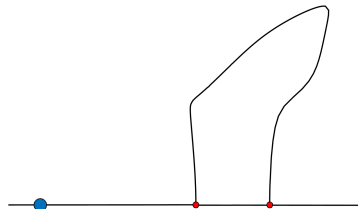

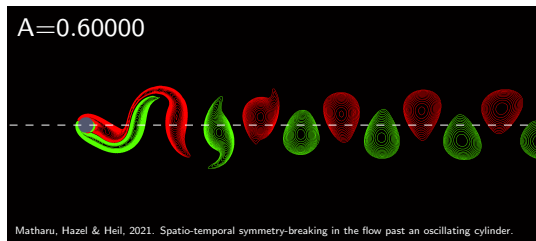

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

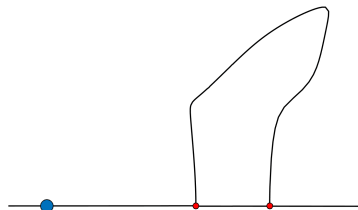

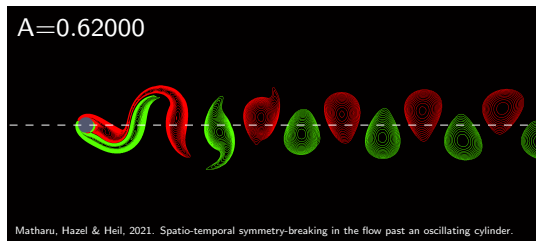

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

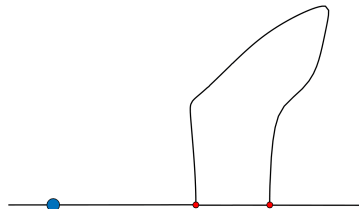

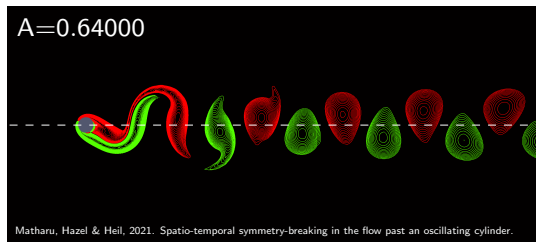

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

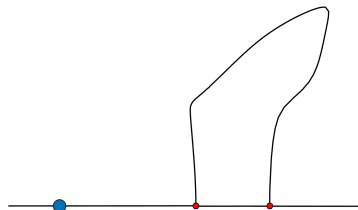

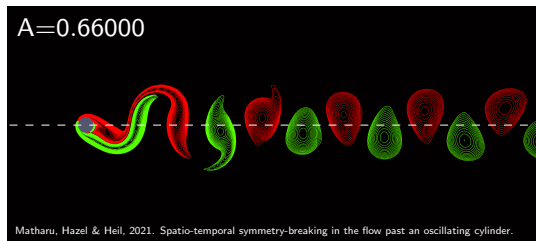

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

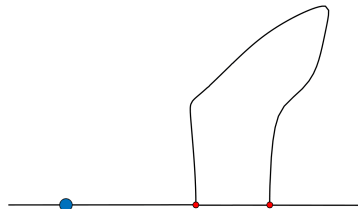

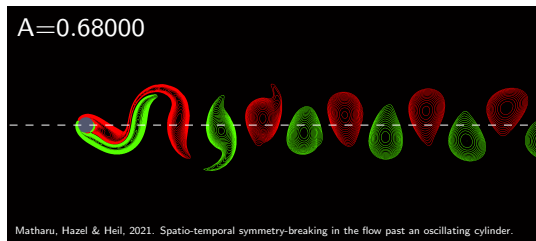

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

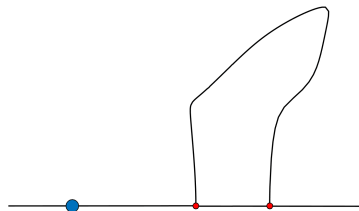

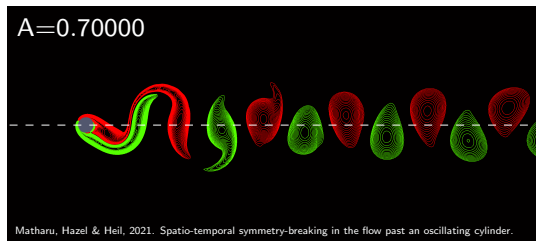

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

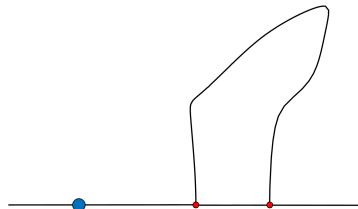

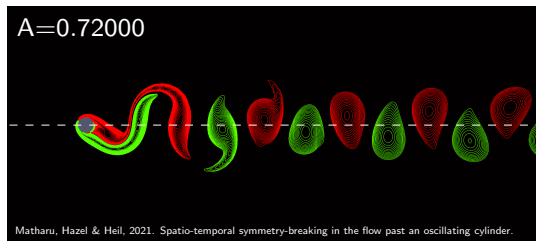

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

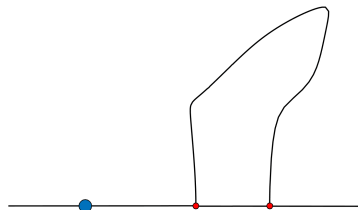

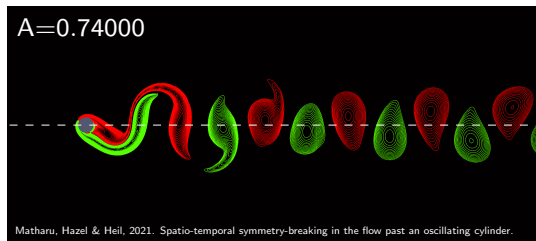

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

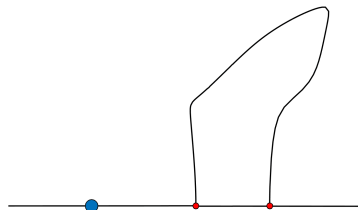

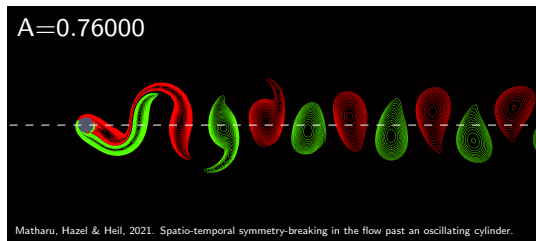

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

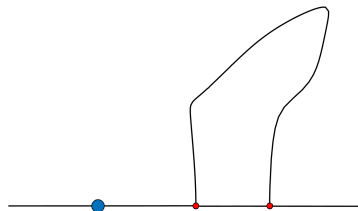

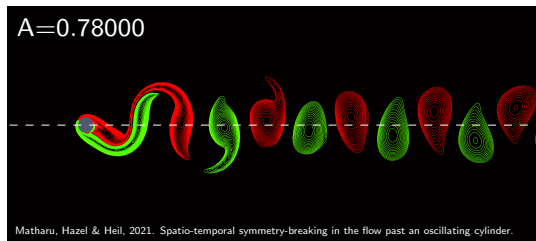

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

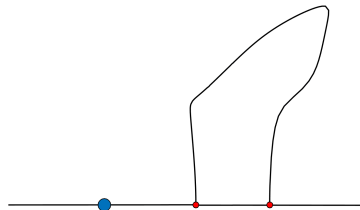

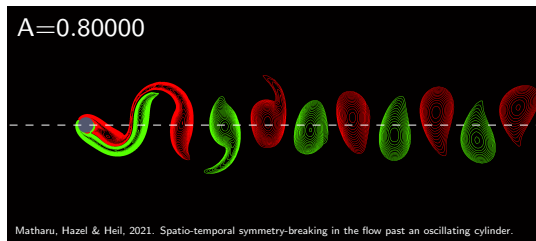

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

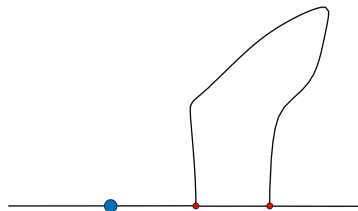

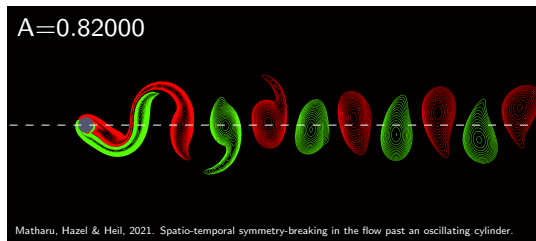

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

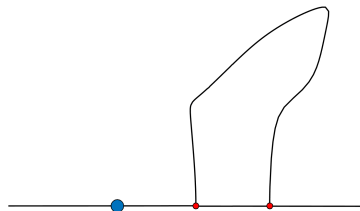

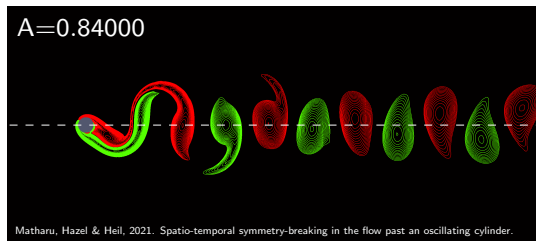

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

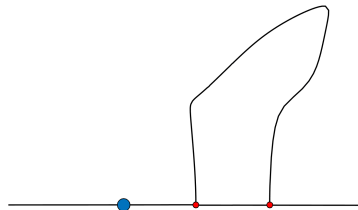

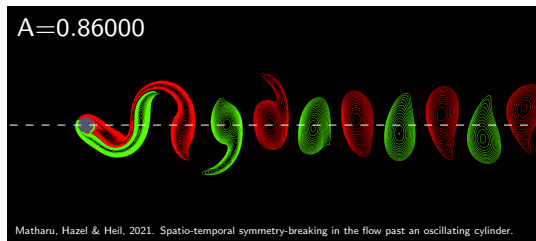

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

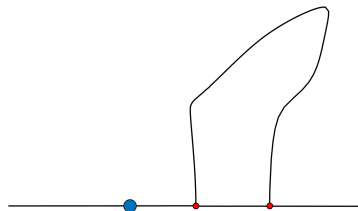

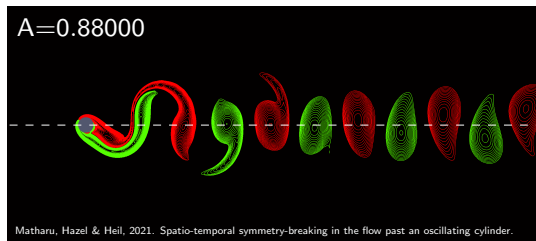

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

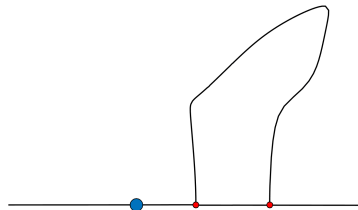

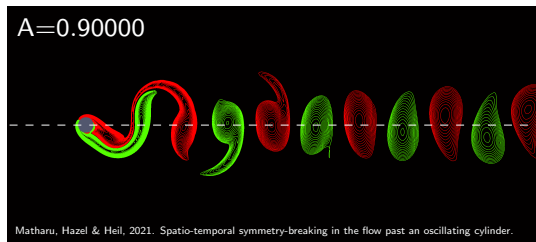

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

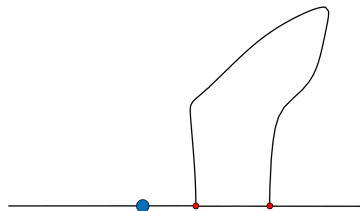

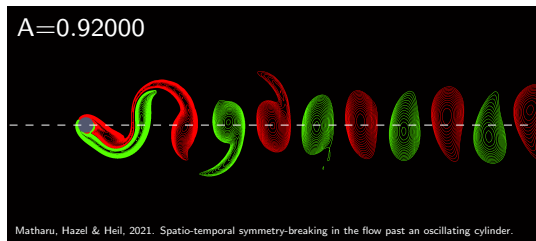

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

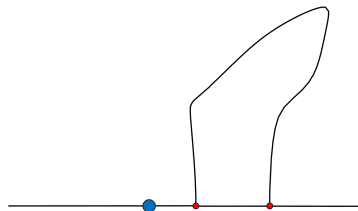

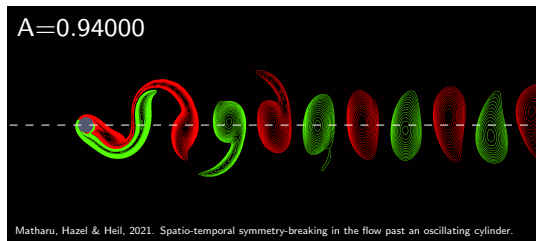

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

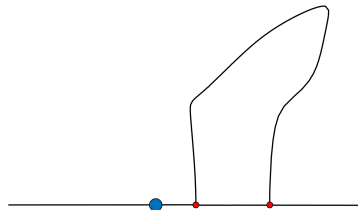

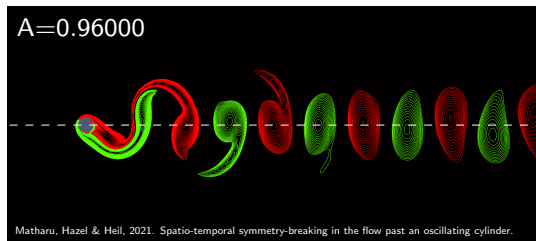

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

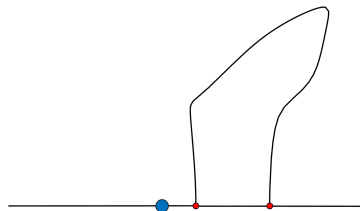

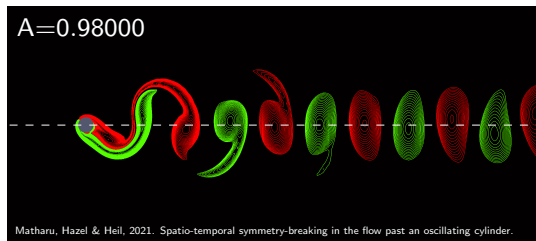

Evolution of the vorticity field further along the 2S branch ($Re = 100$)

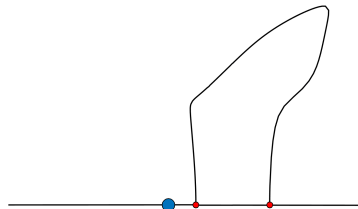

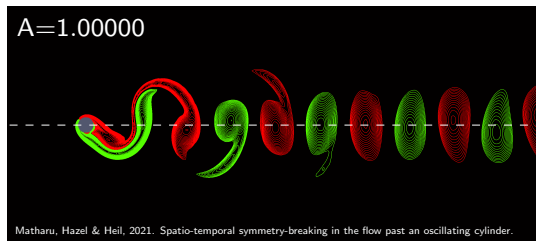

Evolution of the vorticity field further along the 2S branch ($Re = 100$)
