

CORRIGENDUM

The influence of phase on the nonlinear evolution of wavepackets in boundary layer

BY MARCELLO A. F. MEDEIROS AND MICHAEL GASTER

Journal of Fluid Mechanics, vol. 397 (1999), pp. 259–283

Owing to a mistake in the digital signal processing of the experimental data, the amplitudes of the velocity records are incorrect by a factor of 2. Therefore, in figures 1, 4, 11, 12 and 14, the scales that give the amplitude of the velocity fluctuations should be doubled. In figures 1 and 4, they should read $0.01U_\infty$, instead of $0.005U_\infty$. In figures 11, 12 and 14 they should read $0.004U_\infty$, instead of $0.002U_\infty$. The error does not affect the analysis or the conclusions of the paper, except that the observed behaviour occurs for a larger wave amplitude.
