Figure S2 Culture photos before drying and sequential hyphal lengths per week.

Scale bar = 1 cm. Photos show cultures grown on media containing glucose, ribitol, mannitol, and non-carbon sources, from left to right. Graphs show hyphal lengths (longitudinal axis) and incubation weeks (horizontal axis). Graph legends: blue line, cultures grown on media containing glucose; red line, ribitol; orange line, mannitol; purple line, non-carbon sources.

Acrodontium crateriforme (MYA04S08, **Group 1**, Dothideomycetes, Capnodiales, Teratosphaeriaceae)

Periconia sp. (MYA04S03, **Group 4**, Dothideomycetes, Pleosporales, Periconiaceae)

Sporormiella sp. (MA0702, **Group 1**, Dothideomycetes, Pleosporales, Sporomiaceae)

Ramalina sp. (MYA0401, **Group 1**, Lecanoromycetes, Lecanorales, Ramalinaceae)

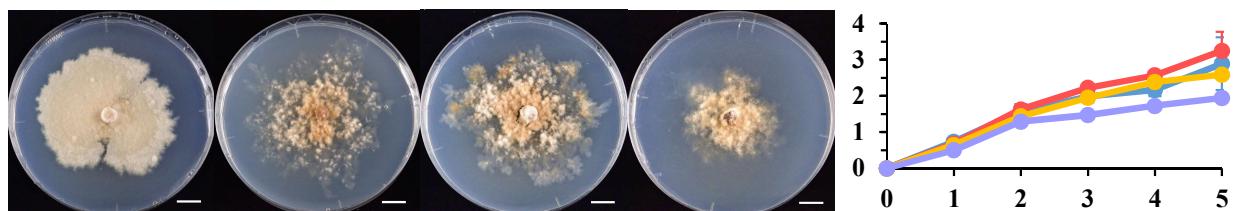

Sarea sp. (HMF-077, **Group 1**, Lecanoromycetes, Trapeliales, Trapeliaceae)

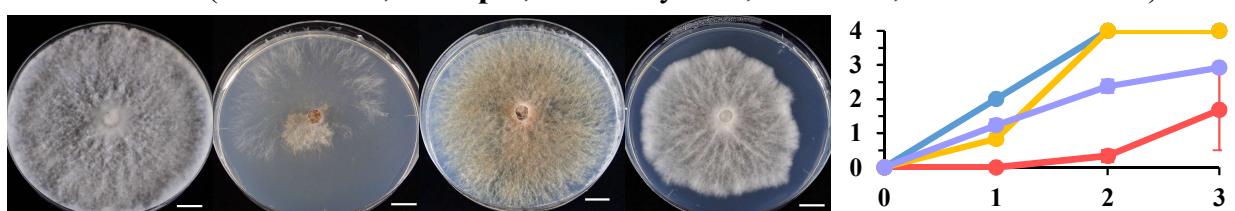

Pezizaceae sp. (MYA12S01, **Group 1**, Pezizomycetes, Pezizales, Pezizaceae)

Pyronemataceae sp. (MYA0701, Group 3, Pezizomycetes, Pezizales, Pyronemataceae)

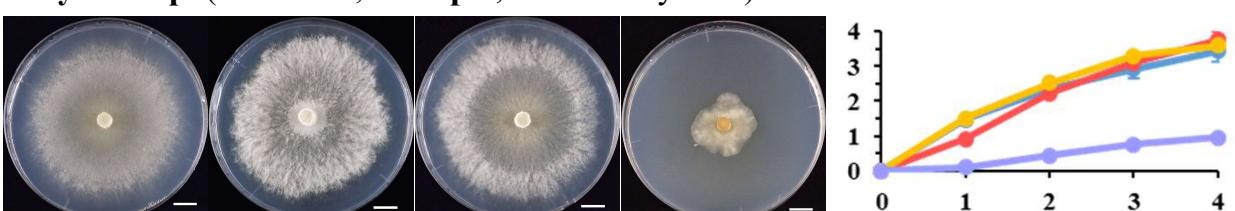

Plectania melastoma (MYA04S02, Group 2, Pezizomycetes, Pezizales, Sarcosomataceae)

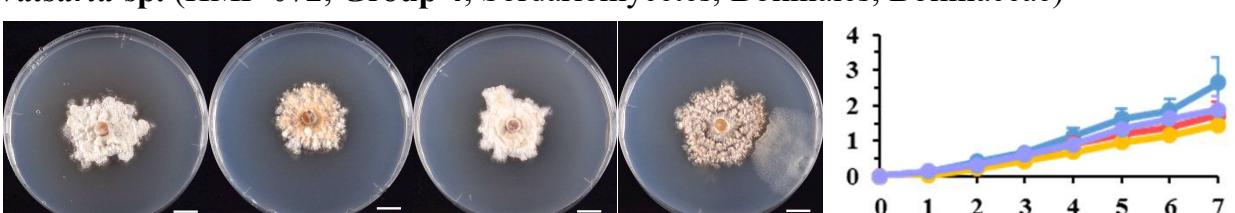

Pseudoplectania sp. (MYA04S08, Pezizomycetes, Pezizales, Sarcosomataceae)

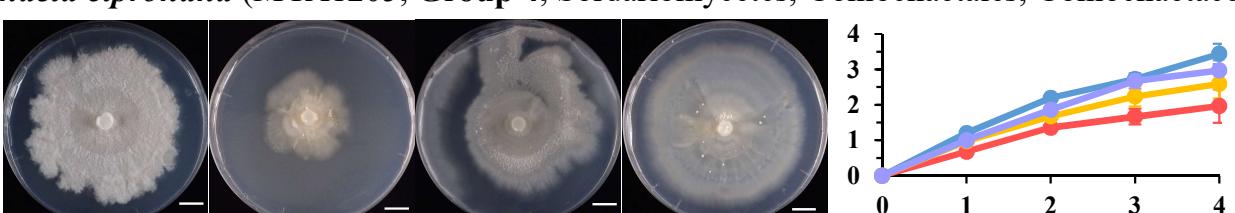

Sordariomycetes sp. (HMF-071, Group 1, Sordariomycetes)

Pseudovalsaria sp. (HMF-072, Group 4, Sordariomycetes, Boliniales, Boliniaceae)

Coniochaeta cipronana (MYA1205, Group 4, Sordariomycetes, Coniochaetales, Coniochaetaceae)

Nectriaceae sp. (HMF-075, **Group 1**, Sordariomycetes, Hypocreales, Nectriaceae)

Cercophora sp. (MA04S01, **Group 4**, Sordariomycetes, Sordariales, Lasiosphaeriaceae)

Biscogniauxia sp. 1 (HMF-078, **Group 4**, Sordariomycetes, Xylariales, Graphostromataceae)

Biscogniauxia sp. 2 (HMF-083, **Group 4**, Sordariomycetes, Xylariales, Graphostromataceae)

Annulohypoxylon sp. (HMF-082, **Group 1**, Sordariomycetes, Xylariales, Hypoxylaceae)

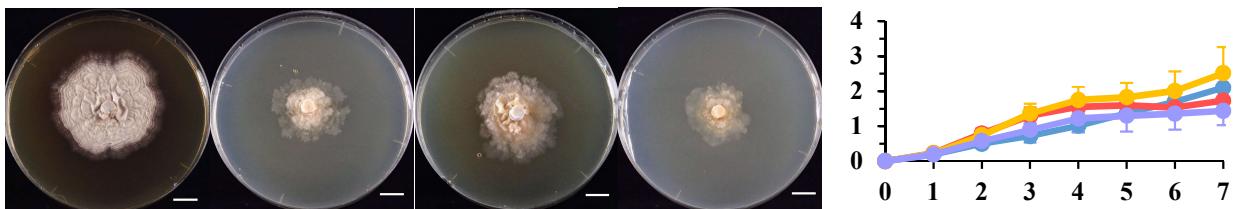

Hypoxylon perforatum (HMF-076, **Group 1**, Sordariomycetes, Xylariales, Hypoxylaceae)

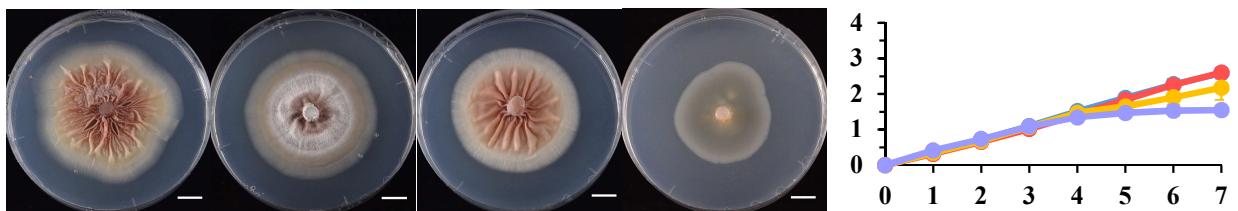

Nemania sp. 1 (MA1204, **Group 4**, Sordariomycetes, Xylariales, Xylariaceae)

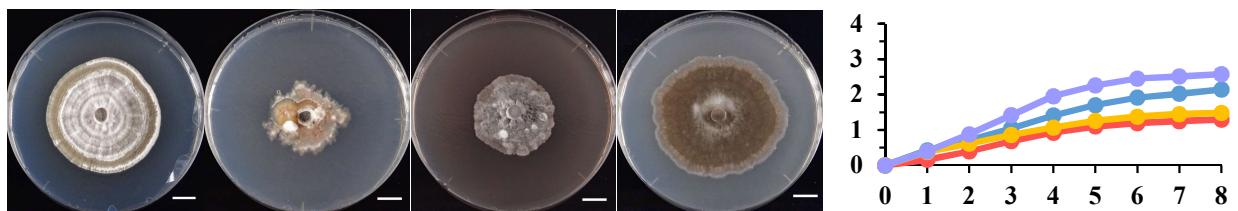

Nemania sp. 2 (MYA07S01, **Group 2**, Sordariomycetes, Xylariales, Xylariaceae)

Virgaria sp. 1 (HMF-080, **Group 1**, Sordariomycetes, Xylariales, Xylariaceae)

Virgaria sp. 2 (HMF-081, **Group 2**, Sordariomycetes, Xylariales, Xylariaceae)

Virgaria sp. 3 (HMF-084, **Group 1**, Sordariomycetes, Xylariales, Xylariaceae)

Virgaria sp. 4 (HMF-090, **Group 2**, Sordariomycetes, Xylariales, Xylariaceae)

Xylariaceae sp. 1 (MYA0703, Group 3, Sordariomycetes, Xylariales, Xylariaceae)

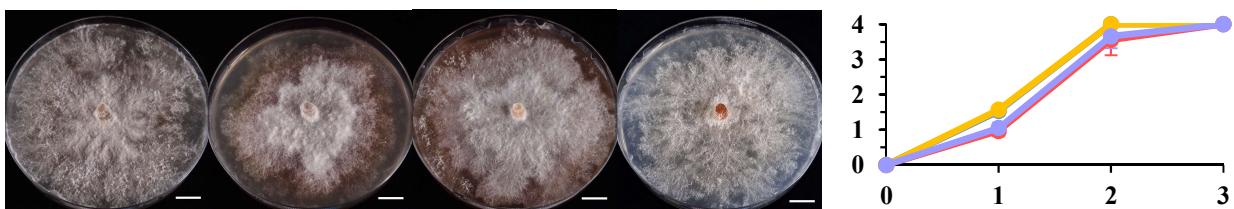

Xylariaceae sp. 2 (MYA04S09, Group 3, Sordariomycetes, Xylariales, Xylariaceae)

Xylariaceae sp. 3 (MYA1202, Group 4, Sordariomycetes, Xylariales, Xylariaceae)

Xylariaceae sp. 4 (MYA12S04, Group 4, Sordariomycetes, Xylariales, Xylariaceae)

Xylariaceae sp. 5 (MYA1214, Group 2, Sordariomycetes, Xylariales, Xylariaceae)

***Emmia lacerata* (MYA12S07, Group 4, Agaricomycetes, Polyporales, Meruliaceae)**
