

Snapshot of the Atlantic Forest canopy: surveying arboreal mammals in a biodiversity hotspot

MARIANE C. KAIZER, THIAGO H.G. ALVIM, CLAUDIO L. NOVAES
ALLAN D. MCDEVITT and ROBERT J. YOUNG

SUPPLEMENTARY FIG. 1 Boxplot comparing rarefied species richness of mammals detected by arboreal camera trapping between mountainous ombrophilous and semideciduous forests in Caparaó National Park, Brazil.

SUPPLEMENTARY FIG. 2 Comparison between ombrophilous and semideciduous forests considering relative abundance of mammals detected by arboreal camera trapping in Caparaó National Park, Brazil.
