

CATALOGUE

Dimi 001

BE 10422

Piriform jar FS 28, almost complete (wall partly restored with gypsum). Light orange clay, foliated structure, more light-coloured surface (slip?), burnished. Dark red to dark brown paint. Slightly burnt. Decoration with wavy vertical stems.

H. 0.095m, D. rim ca. 0.063m

Date: LH IIB.

Publication: Adrymi-Sismani 1999, 140, figs. 28-29; Adrymi-Sismani 2013, 177, fig. 30.

NAA result: single

Dimi 002

Clay lump from the interior of the kiln. Light orange clay, with many large variegated and calcareous inclusions. One even surface.

NAA result: DimE

Dimi 003

Rim fragment of a cooking pot. Clay orange, plentiful fine mica and medium-sized variegated inclusions; surface almost entirely flaked off.

D. rim ca. 0.19m.

Date: LH IIB-III A (context)

NAA result: DimI

Dimi 004

Wall fragment of a closed vessel. Light orange clay, fine with silver mica. Exterior surface with matt white slip and added light red to dark red paint. Curved lines with a double outline.

Date: LH IIB-III A (context)

Publication: Adrymi-Sismani 1999, fig. 6b (upper row, right)

NAA result: DimI

Dimi 005

Kylix rim fragment with vertical strap handle. Light orange clay, fine. Undecorated, surface probably with white slip, but heavily worn.

Date: LH IIIA2.

NAA result: DimI

Dimi 006

Wall and stem fragment of a kylix. Light orange clay, fine with mica and other small inclusions. Light-coloured slip and dark brown paint, heavily worn. Decoration consists of a band at the preserved part of the stem, and most likely of an octopus above.

Date: LH IIIA2.

NAA result: DimI

Dimi 007

Kylix rim fragment with handle stump. Very light yellow clay, fine with many small mainly reddish inclusions. Undecorated, very worn.

D. rim 0.14m.

Date: LH IIIA2.

NAA result: X149

Dimi 008

Wall and stem fragment of a kylix. Light orange clay, fine with few medium-sized inclusions and fine mica. Surface light buff (slip?), largely worn off.

D. stem ca. 0.026m.

Date: LH IIIA.

NAA result: DimI

Dimi 009

Fragment of a coarse, fired clay object with one flat side; found inside the kiln, but exact location unknown. Orange to brownish-black clay, with plenty medium-sized to large variegated inclusions.

NAA result: DimE

Dimi 010

Fired piece of clay from the kiln with one even surface. Orange clay with plentiful medium-sized to large variegated inclusions and fine mica.

NAA result: DimE

Dimi 011

Fired piece of clay from the kiln, very uneven surface; in some areas it appears slightly shaped, with the surface being more even. Orange to black (burnt) clay with plentiful calcareous and other small to large inclusions.

NAA result: DimE

Dimi 012

BE 2968

Rim, wall and handle fragments of an amphora (heavily restored with gypsum), handmade. Four vertical handles set just below the rim. Simple flat base. Dark brown clay, coarse with plenty small to large variegated inclusions.

H. 0.28m; D. rim 0.115m.

Date: LH IIIC Early

Publication: Adrymi-Sismani 2013, 250, pl. 80b

NAA result: single

Dimi 013

Piece of clay from the kiln. Soft and brown clay.

NAA result: single

Dimi 014

Wall fragment of a closed vessel. Fine buff clay and surface. Lustrous exterior surface. Dark brown paint. Decoration with zigzag and foliate band

Date: LH II.

NAA result: MBCs

Dimi 015

Rim fragment of an open shape (cup/stemmed bowl/goblet). Very light-coloured clay, no visible inclusions, surface very pale brown (10YR 8/3). Brown paint. Rim band in and out, wavy band below on the exterior.

D. rim ca. 0.15m.

Date: LH IIIA.

NAA result: X032

Dimi 016

Wall fragment with a stump of horizontal round handle to a probably closed vessel. Pink clay, surface very pale brown (10YR 8/3). Reddish brown paint. Two thin horizontal bands enclosed by a thicker band on each side

Date: LH IIB-III A1

NAA result: MYBE

Dimi 017

Wall fragment of a closed vessel. Light buff, slightly greenish clay and lustrous exterior surface. Brownish black paint almost completely flaked off. Decoration of diagonal lines above a horizontal band.

Date: LH IIIA (context).

NAA result: MBKK/MBKR

Dimi 018

Wall fragment with stump of handle from a straight-sided alabastron FS 94. Pink clay, with very pale brown core and pale brown margins, surface very pale brown (10YR 8/3). Reddish brown to dark brown paint. FM 57 net on the shoulder and horizontal bands on vertical body.

Date: LH IIIA2.

NAA result: MYBE

Dimi 019

Wall fragment of a low-footed goblet/kantharos. Light orange, fine clay, much fine mica, light-coloured surface. Undecorated.

D. base onset 0.06m.

Date: LH IIIA.

NAA result: DimI

Dimi 020

Rim and wall fragment of a Grey Minyan bowl with incurving rim and horizontal handle. Grey surface (10YR 5/1).

D. rim ca. 0.07m.

Date: MH (context: LH IIIA).

NAA result: EuA

Dimi 021

Stem fragment of a kylix. Fine whitish clay with grey core. Paint is hardly visible, perhaps not fired properly. Banded decoration.

D. stem ca. 0.02m.

Date: LH IIIA2-B.

NAA result: TheA

Dimi 022

Wall fragment of a probably handmade vessel, presumably open. Surface pink (5YR 8/4), burnished.

Date: LH IIIA (context)

NAA result: DimI

Dimi 023

Rim fragment of a very large, possibly wheel-made vessel. Coarse cooking fabric, clay and surface appear like Aeginetan but with much silver mica and no other characteristic temper for Aegina.

Date: LH IIIA (context)

NAA result: single

Dimi 024

Fragment of a horizontal handle with triangular cross section. Reddish yellow clay, only calcareous inclusions visible, surface pink/reddish yellow, well burnished.

Date: MH III-LH I? (context: LH IIIA)

NAA result: single

Dimi 025

Base fragment of an open vessel, Δ1γ Ware. Fine, well-burnished fabric. Light grey clay, turning light orange brown towards exterior surface. Paint almost gone, remaining paint light red.

D. base 0.06m.

NAA result: AkaR

Dimi 026

Long everted rim fragment of a possibly wheel-made cooking pot. Plentiful mica.

D. rim ca. 0.17m?

Date: LH IIIA (context).

NAA result: single

Dimi 027

Fragment of an open vessel, most likely a monochrome stemmed bowl, preserving part of the bowl and domed stem. Surface pink (7.5YR 7/4), only calcareous inclusions (<0.5 mm) visible. Reddish brown paint.

Date: LH IIIA2

NAA result: single

Dimi 028

Rim and wall fragment of a krater. Orange clay, large calcareous inclusions, surface with matt white slip. Rim band in and out, unidentifiable curvilinear motif with a fill of curved stripes.

Date: LH IIIA.

Publication: Adrymi-Sismani 1999, fig. 6b (upper row, left); Adrymi-Sismani 2013, fig. 57

NAA result: DimI

Dimi 029

Wall fragment of a carinated open vessel. Grey clay, a little calcareous, surface light brownish grey (10YR 6/2).

Date: LH IIIC Early

NAA result: DimI

Dimi 030

Wall fragment with horizontal handle to a deep bowl FS 284. Very pale brown (10YR 8/3) clay and surface. Brown paint. Monochrome interior, three-splashed handle with band below.

Date: LH IIIC Early.

NAA result: single

Dimi 031

Wall fragment (neck/shoulder) of a closed vessel. Pinkish orange clay with small to large, mainly dark red inclusions. Exterior and interior surface at the rim with matt white slip. Reddish brown paint. Bands on upper and lower neck, enclosing a stretched wavy band. Bands on shoulder, below panel pattern.

Date: LH IIIC Early.

NAA result: single

Dimi 032

Wall and stem fragment of a kylix, preserving an almost complete profile. Fine orange clay with fine silver mica, lighter-coloured surface. Unpainted.

D. stem ca. 0.025m.

Date: LH IIIC Early (context).

NAA result: DimI

Dimi 033

Wall fragment of a closed? Bichrome vessel, probably handmade. Light red clay with inclusions of calcite and fine mica, reddish yellow surface (7.5YR 7/6). Exterior surface well burnished, interior left rough. Bands in very dark grey and red paint.

Date: MH III (-LH I?)

NAA result: DimI

Dimi 034

Wall fragment with part of a vertical handle, probably wheel-made closed vessel with grooved shoulder. Dark burnished surface. Fine clay, with medium-sized inclusions and mica.

Date: MH.

NAA result: KroC/KroP

Dimi 035

Rim fragment of a probably open vessel. Light red clay with grey core, micaceous. Surface reddish yellow (5YR 7/6), burnished. Unpainted.

Date: LH IIIB2 (context).

NAA result: DimI

Dimi 036

BE 2969

Bowl with incurving rim and flat base, restored with plaster. Burnished black surface. Exterior with row of impressed dots below rim, and impressed decoration of alternating groups of oblique lines below. On the interior side of the base impressed decoration forming a cross.

H. 0.105m.

Date: LH IIIC Early.

Publication: Adrymi-Sismani 2013, 250, pl. 80a

NAA result: single

Dimi 037

BE 22672

Almost completely preserved stemmed krater FS 9, base missing. Decoration with bird and panels.

Date: LH IIIA2 (context LH IIIB2).

Publication: Adrymi-Sismani 1994, 228, Abb.8; Adrymi-Sismani 2013, 217, figs. 57a, 63

NAA result: DimI

Dimi 038-039

Modern akroteria.

NAA result: X032

Dimi 040 (Dimi T1)

Clay samples taken from an exposure of an old clay pit in Dimini.

NAA result: DimI

Dimi 041 (Dimi T2)

Clay samples taken from an exposure of an old clay pit in Dimini.

NAA result: DimI

Dimi 042 (Dimi T3)

Clay samples taken from an exposure of an old clay pit in Dimini.

NAA result: DimI

Dimi 043 (Dimi 043z)

Modern brick made of local clay in Dimini.

NAA result: single

Dimi 044

Modern brick made by potter Kostas Louros from local clay (from sampling location T2/Dimi 041) in Dimini.

NAA result: DimI

Dimi 045

Modern kiln fragment from Kostas Louros' workshop, made of local clay (from sampling location T2/Dimi 041) in Dimini.

NAA result: DimI

Iolk 001

Kastro/Palaia, BE 15019 (Fig.)

Fragment (shoulder and belly) of a stirrup jar FS 173. Pink clay 7.5YR 7/4, with slip of the same colour. Brown paint. Decoration with FM 19 multiple stem on the shoulder and wide and narrower bands alternating on the belly.

H. 0.22m

Date: LH IIIB.

NAA result: single

Iolk 002

Kastro/Palaia,

Fragment of stem and base of a kylix FS 258B. Clay 7.5 YR 8/4, buff slip 10 YR 8/3, red paint. Linear decoration.

Date: LH IIIA2/IIIB1

NAA result: X149

Iolk 003

Kastro/Palaia, BE 15024

Part of a small mug FS 226. Very fine pink clay 7.5YR 7/4, with white slip 10YR 8/2. Brown lustrous paint. Rim painted inside and outside. Three bands divide the vase into zones above and below the waist, decorated with FM 46:22 curtailed running spiral. Monochrome handle, with a reserved triangle on top. The base is convex.

H.0.055m

Date: LH IIIB/C Early

NAA result: X149

Iolk 004

Kastro/Palaia,

Body sherd of a stirrup jar or flask. The belly is decorated with a band showing bivalve shell between broader

bands. Orange clay 5YR7/4-7/6. Buff pink slip 7.5YR 8/4. Brown to red lustrous paint.

Date: LH IIIB/C Early

NAA result: pair with Iolk 020

Iolk 005

Kastro/Palaia, BE 15018

Krater FS 281 (lower part and base are missing). Very pale brown clay 10YR 8/3, with white slip 10YR 8/2. Black to brown lustrous paint. Thickened rounded rim with a knob placed just below it, between the handles. Band at the rim, group of three bands bordering the decorative zone between handles. Decoration with a central triglyph with wavy lines and FM 50:6 antithetic spirals, monochrome interior.

H. 0.185m, D. rim 0.245m.

Date: LH IIIB/C Early

NAA result: single

Iolk 006

Kastro/Palaia, BE 15023

Fragment of a stirrup jar FS 171 (shoulder, neck, one handle, disk). Pink clay 7.5YR 7/4 with lustrous slip of

the same colour. Black to brown lustrous paint. Rim painted. Decoration with FM 18C unvoluted flower on the shoulder. A loop connects the neck of the false mouth to the neck of the spout. Concentric circles on the disk.

H. 0.04m, D. disk 0.035m, D. mouth 0.025m.

Date: LH IIIB

NAA result: MYBE

Iolk 007

Kastro/Palaia, BE 15014

Upper part of a flask FS 192, with spout and both handles. Pink clay 7.5YR 7/4, buff slip same colour with the clay. Black to red-brown lustrous paint. Decoration with FM 18C unvoluted flower on the shoulder and FM 61 zigzag between wide and narrower bands alternating on the belly.

H. 0.09m, D. mouth 0.026m, D. belly 0.10m.

Date: LH IIIB

NAA result: single

Iolk 008

Kastro/Palaia

Rim fragment of a goblet. Orange clay 7.5YR 7/6, yellow lustrous slip 10YR 7/6. Black lustrous paint. Rim painted inside and outside, parts of a curvilinear motif below the rim.

Date: LH IIB

NAA result: MBCs

Iolk 009

Kastro/Palaia

Rim of a handmade and burnished unpainted open shape with a lower attachment of a vertical handle.

Date: LH I-IIB (context)

NAA result: single

Iolk 010

Kastro/Palaia

Fragment of a Vapheio cup FS 224 (rim and body). Pink clay 7.5YR 7/4, pink slip 7.5YR 8/4. Brown paint. Band at the rim (in and out), below FM 46 framed running spiral.

Date: LH I

NAA result: MYCE

Iolk 011

Kastro/Palaia

Rim fragment of an open shape. Pale brown clay 10YR 8/3, slip same colour with the clay. Dark brown, matt paint. Outside below the rim, decoration with wavy lines between two bands. Inside below the rim, a group of nine parallel vertical strokes.

Date: LH I

NAA result: single

Iolk 012

Kastro/Palaia

Fragment of base of a closed shape. Very pale brown clay 10YR 7/3, lustrous slip of the same colour with the clay. Brown lustrous paint. A band around the base.

Date: LH II

NAA result: MYCE

Iolk 013

Kastro/Palaia

Two joining sherds from the belly of a closed shape. Orange semi-fine clay 5YR 6/6, with slip of the same colour. Red matt paint. Decorated with FM 63 hatched loop.

Date: LH II(A?)

NAA result: X093

Iolk 014

Kastro/Palaia

Rim, handle and body fragments of a Vapheio cup FS 224. Band at the lip, two rows of FM 64 foliate band divided by a double band at the mid-body, additional band below. Ribbon handle with oblique strokes. Fine clay, pink 5YR 7/4, with lustrous slip of the same colour. Brown lustrous paint.

Date: LH IIA

NAA result: X066

Iolk 015

Kastro/Palaia

Body fragment of a closed shape. Pink clay 7.5YR 7/4, pink slip 7.5YR 8/4. Brown to black lustrous paint. Decorated with curved parallel lines.

Date: LH II

NAA result: MBCs

Iolk 016

Kastro/Palaia

Fragment (handle and rim) of an open handmade burnished shape with a vertical high handle.

Date: LH I-IIB (context)

NAA result: ApoA/AkaR

Iolk 017

Kastro/Palaia

Body fragment of a closed shape. Pink clay 7.5YR 7/4, with buff yellowish slip. Dark brown paint. Decoration with FM 63 hatched loop, probably part of a racket-tree pattern (FM 63:10).

Date: LH IIA

NAA result: AegA

Iolk 018

Kastro/Palaia

Body fragment of a Bichrome closed shape. Orange clay 5YR 6/6, red and brownish-black paint, wavy band between two horizontal bands.

Date: LH I-IIB (context), probably LH I

NAA result: single

Iolk 019

Kastro/Palaia

Rim fragment of a handmade and burnished hemispherical bowl. Core grey, orange on the surface 5YR 6/6.

Date: LH I-IIB (context)

NAA result: AkaR

Iolk 020

Kastro/Palaia

Lower body fragment of a deep bowl. Pink clay 7.5YR 7/4, unslipped exterior. Monochrome interior. Black to brown clay. Decorated with FM 58 chevron and bands (thick above two thin ones) that define the decorative zone.

Date: LH IIIB/C (context: LH I-IIB)

NAA result: pair with Iolk 004

Iolk 021

Kastro/Palaia, BE 9048

Complete, except for part of a handle, jug with a cutaway neck FS 135, found in an intramural child tomb.

It belongs to the squat domestic type. Rim, neck and base monochrome. Decoration with FM 67 curved stripes in combination with FM 16:6 reed motif. Brown clay 7.5YR 6/4, with slip in the same colour. Buff red to brown paint.

H. 0.102m, D. base 0.032-.034m, D. max.0.082m.

Date: LH IIB

NAA result: DimI

Iolk 022

Kastro/Palaia, BE 9047

Nearly complete unpainted squat jug. Orange semi-fine clay 5YR 6/6, with fugitive slip of the same colour. Strap handle, hollowed in the middle.

H. 0.62m, D. rim 0.053m, D. base 0.042m.

Date: LH I-IIB (context), probably LH I

NAA result: single

Iolk 023

Kastro/Palaia, BE 16613

Fragment of a handmade burnished matt-painted kantharos (one handle, rim and part of the upper body).

Pale brown clay 10YR 8/3, slip same colour with the clay. Matt brown paint. Outside below the rim, decoration with tight zigzag between one band above and two bands below. Inside below the rim, parallel painted strokes in groups. Strap high-swung handle with oblique strokes at the edges.

Date: LH I

NAA result: single

Iolk 024

Kastro/Palaia

Handle and part of the body of an open handmade shape. Red clay, slip of the same colour, burnished.

Date: LH I

NAA result: single

Iolk 025

Kastro/Palaia

Fragment of a handmade closed shape. Orange clay 5YR 6/6, buff yellowish slip. Bichrome matt-painted with bands of red and brown paint.

Date: LH I

NAA result: single

Iolk 026

Kastro/Palaia

Body fragment of a deep bowl FS 284. Very pale brown clay 10YR 8/3, buff slip of the same colour. Brown lustrous paint. Decoration with FM 73:14 lozenge combined with bivalve shells placed at the upper and lower corner. Monochrome interior.

Date: LH III B/C Early

NAA result: X149

Iolk 027

Kastro/Palaia

Fragment of a kylix. Orange clay 5YR 7/6 with mica. Red lustrous paint. Decoration with FM 21 octopus.

Date: LH IIIA2/IIIB1

NAA result: X160

Iolk 028

Kastro/Palaia

Rim fragment of a kalathos FS 291, preserving part of a horizontal handle. Orange clay 5YR 7/8 with mica, pink slip 5YR 7/4. Red paint. Interior decorated with FM 7 bird below a rim band, possibly a rim band on exterior.

Date: LH IIIC Middle

NAA result: single

Iolk 031

Kastro/Palaia

Near rim-fragment of a krater FS 282. Pink clay 5YR 7/4. Brown lustrous paint. Complex decoration with FM 75:38 panelled pattern, dot-fringed isolated concentric circles, fringed solid circle, and parallel curved bands fringed with dots and strokes, perhaps belonging to an octopus. Monochrome interior.

Date: LH IIIC Late

NAA result: DimI

Iolk 029 and Iolk 030

Kastro/Palaia

Two rim fragments of the same krater (joining) FS 282. Red to brown clay 2.5YR 6/4 without slip. Dark brown to black lustrous paint. Flat out-turned rim, pointed knob placed below. Decoration with FM 8:8 snake flanking a complex triglyph motif including FM 58 chevron framed by vertical lines, fringed only on the right side. Monochrome interior.

Date: LH IIIC Middle

Publication: Batziou-Efstathiou 2003, 261, fig. 4.

NAA result: DimI

Iolk 032

Kastro/Palaia, BE 15031

Deep bowl FS 284, preserving a complete profile. Pale brown to pink clay 7.5YR 7/4 with yellow slip 10YR 8/3. Brown paint. Simple flaring rim painted outside with a wide band. Decorated with FM 46 running spiral framed between the rimband and two bands below the handles. Thick and thin band at the base, monochrome interior.

H. 0.15m, D. rim 0.17m, D. base 0.075m.

Date: LH IIIC Early/Middle

NAA result: single

Iolk 033

Kastro/Palaia, BE 16612

Fragment of a deep bowl FS 284, preserving rim, body, handle stump and a non-joining ring base (sampled). Orange clay 5YR 7/6 with yellowish slip. Brown to red lustrous paint. Rim painted with a band. Decoration with a central triglyph and FM 50:10 antithetic spirals. Group of fine lines below handle, band at base. Monochrome interior.

Date: LH IIIB/C Early

NAA result: pair with Buba 16

Iolk 034

Kastro/Palaia

Body fragment of an open shape with bichrome decoration. Red clay 2.5YR 6/4 with yellowish/white slip. Red and black matt paint. Decorated with framed double wavy line and bands.

Date: LH I

NAA result: DimI

Iolk 035

Kastro/Palaia, Ka 3864/17

Rim and body fragment of a krater FS 282. Brown-red clay 5YR 6/4, without slip outside. Brown paint. Monochrome interior. Thickened rounded rim. The bottom of the decorative zone is bordered by three bands (probably two thin framing a thick one). Decorated with FM 6 goat, which preserves the front of its body, neck, head and the forelegs. Rendered in silhouette with streaky paint apart from a reserved circle for the eye, the horns, thighs and hoofs in outline, and a hatched muzzle. A wavy line below the muzzle indicates the beard.

H. 0.125m, w. 0.10m.

Date: LH IIIC Middle

NAA result: DimI

Iolk 036

Kastro/Palaia, Ka 3865/18

Rim fragment of a krater FS 282. Brown-red clay 5YR 6/4 with slip of the same colour inside. Brown paint. Everted, sloping rim, painted on top. Band below, bordering the decorative zone with FM 20 two fish moving right. Three oblique strokes on the back and the belly for the fins. Unpainted interior.

H. 0.077m.

Date: LH IIIC Middle

NAA result: EuA

Iolk 037

Kastro/Palaia, Ka 3868/21

Body fragment of a krater FS 282 with stump of a handle. Brown clay 7.5YR 6/4, brown paint. The bottom of the decorative zone is probably bordered by a thick band. The decorative zone displays a standing man holding the reins and part of a quadrupeds' body, whose tail and legs are preserved. The man's head, the left upper part of the body and part of the legs are not preserved. It could be interpreted as a chariot scene, but there is no box (the loop-shaped object in front of the man does not extend back to him), and the man is very close to the ground. There is no space for a wheel, either. An interpretation as an agricultural scene seems probable. Monochrome interior.

H. 0.097m, w. 0.117m.

Date: LH IIIC Middle

Publication: Batziou-Efstathiou 2003, 261, fig. 4.

NAA result: DimI
