

## Default Question Block

Name of facility:

Does this facility have adequate supply of the following?

	Plenty (No shortage anticipated)	Many days supply	Few days supply	Almost out or none	Unknown
N95 respirators	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Face shields	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Surgical facemasks	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
PAPRs	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Gowns	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Goggles	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Gloves	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Hand Sanitizer	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Hand Soap	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Environmental cleaner/disinfectant	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Is this facility reprocessing N95 respirators using the following methods?

Hydrogen Peroxide Vapor (Bioquell etc)

Hydrogen Peroxide Vapor (STERIS V-PRO)

Hydrogen Peroxide Plasma (STERRAD)

UV radiation

Ethylene oxide

Other, enter method below:

Planning to reprocess using method chosen, not started yet

Does not reprocess N95

What month did this facility STOP elective surgical procedures? (Carpal tunnel release, EGD, Colonoscopy, Cataracts, etc)

Enter month year below

Unknown

Did not stop elective procedure during pandemic

What month did this facility re-start elective surgical procedures? (Carpal tunnel release, EGD, Colonoscopy, Cataracts, etc)

Enter month when elective procedures were started

Unknown

What month did this facility testing stop testing asymptomatic patients for COVID19 before transfer to long term care or skilled nursing facilities?

Yes, Enter month

Facility still tests asymptomatic patients prior to discharge to LTC

No

Unknown

What month did this facility start performing universal masking?

Enter month

Unknown

What month did this facility start daily employee screening for signs and symptoms of COVID-19 at point of entry? (e.g., temperature checks, reported signs/symptoms, etc.)

Enter month of screening

Unknown

Does this facility perform universal pre-operative COVID19 testing for asymptomatic patients before surgery?

Yes, for some surgeries, mention below

Yes, for all or most surgeries

No

What laboratory is this facility using to test for COVID-19?

Quest

Labcorp

Viracor

Abbott POC test

Department of Health

In House Testing

Other: Enter lab name below

What month did you stop using test based strategy and move to symptom based strategy to remove COVID19 isolation precautions? (Facility performs a repeat COVID PCR test and only removes isolation if negative)

We started using symptom based strategy on the date below, enter month

We still use test based strategy to remove isolation

Unknown

Where and how do staff use eye protection in this facility? (note high risk settings below include aerosol generating procedures (AGPs), PUIs and COVID+ patients)

Staff use universal eye protection (Face shield or goggles at all times on hospital premises)

Staff use eye protection in all inpatient and outpatient rooms, but only if the patient is not masked + high risk settings

Staff use eye protection in all inpatient rooms only, but only if the patient is not masked + high risk settings

Staff use eye protection in all patient rooms and high risk settings

Staff use eye protection in the ED, + high risk settings

Staff use eye protection only for high risk settings:

If this facility does not perform pre-operative testing before all surgeries, what PPE do they use for the untested patients?

Enhanced PPE if preoperative testing not performed

No change in PPE if preoperative testing not done, enhanced PPE only used for PUIs and COVID+ patients

N/A We perform preoperative testing for all patients

How many Infection Prevention FTE (Full time Equivalent) does this facility have?

0-1

2-4

>5

Has this facility had infection preventionist furloughs or staffing cuts during COVID-19?

Yes

No

Unknown

Is this facility using different types/brands of the following items on site (due to shortages)?

Environmental disinfectant

Hand Sanitiser  
Gowns  
Gloves  
Surgical Mask  
N95 respirators  
Eye Protection

Does this facility test all patients for COVID-19 on admission?

Yes with PCR test  
Yes with Antigen Test  
No

What date did this facility start in house testing start?

Enter month

Do not have in house testing  
Unknown

What was this facility's weekly average in house testing capacity

<20  
21-50  
51-100  
>100  
Unknown  
Facility does not have in house testing

Did this facility increase the use of agency nursing since the start of the pandemic?

Yes  
No  
Unknown
