

## CENTRAL LINE Maintenance - CNA Skills Assessment:

**Assessment**

Date: \_\_\_/\_\_\_/\_\_\_\_\_ Staff Initials \_\_\_\_\_ Resident Room # \_\_\_\_\_

Type of Venous Access:  Midline  Dialysis

**Observed Practices (non-interview)**

**Research staff assessment:**

Admit Date ...../...../.....

CLISA Score  0  1  2  3  Not Visible .....

Any drainage present?  Y  N ..... What Type (bloody, serous, pus).....

Dressing integrity  All 4 sides adherent  1 side peeling  2 or more sides peeling .....

Dressing change date clearly marked  Y  N .....

Date of dressing change >7 days?  Y  N .....

Comments: .....

**CNA response to viewing line:**

**Query to Certified Nurse Assistant (CNA)**

1. Tell us what a “picture-perfect” line looks like:

---

---

2. How often should central line dressings be changed?  Every shift  Daily  Twice a week  Weekly  Every two weeks

3. How often should you observe the central line insertion site?  Every shift  Daily  Twice a week  Weekly  Every two weeks

4. What would you do if you found signs of infection (redness or pus) around the central line insertion site?

---

5. What would you do if the central line dressing were soiled?

---

6. What would you do if the central line dressing were peeling?

---
