

A new bath complex in Late Roman Dyrrachium (Albania)

Brikena Shkodra-Rrugia

Institute of Archaeology, Academy of Albanological Studies, Tirana <brikena0205@gmail.com>

1. SUPPLEMENTARY FIGURES

Suppl. Fig. 1. Plan and elevation drawing of the curved wall (Fig. 4: 002) northeast of the baths. (Drawings by P. Naipi.)

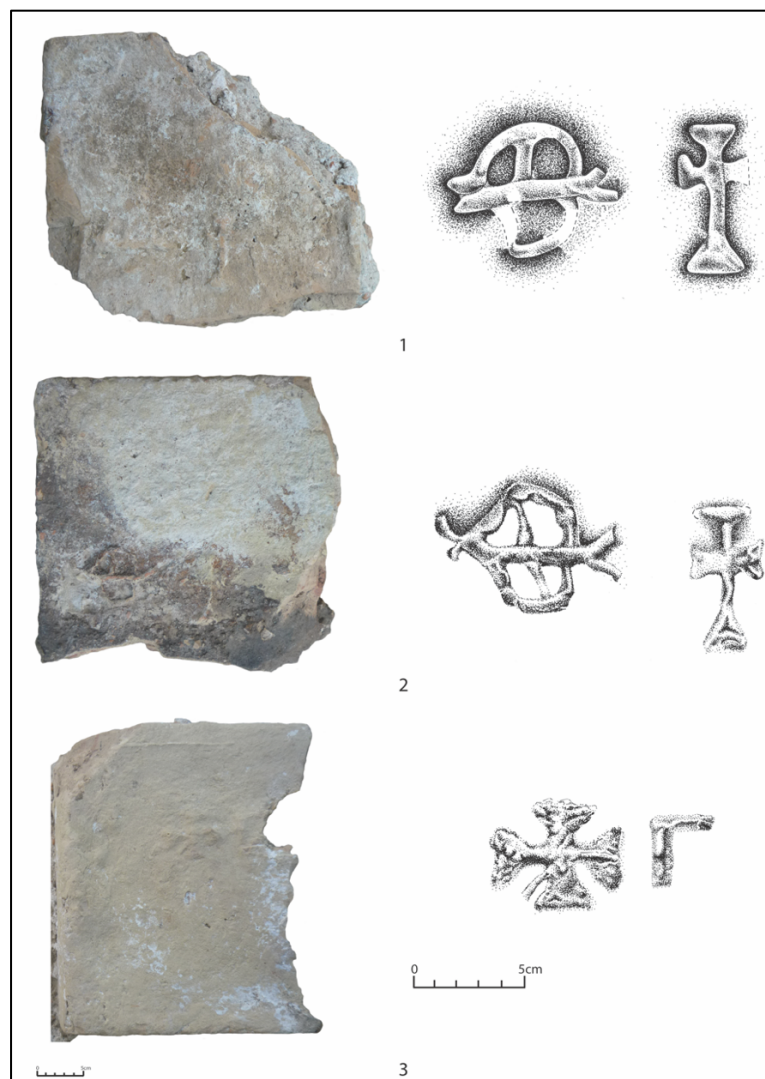

Suppl. Fig. 2.. *View of the junction between rooms Ib and Ic, looking west. (B. Shkodra-Rrugia.)*

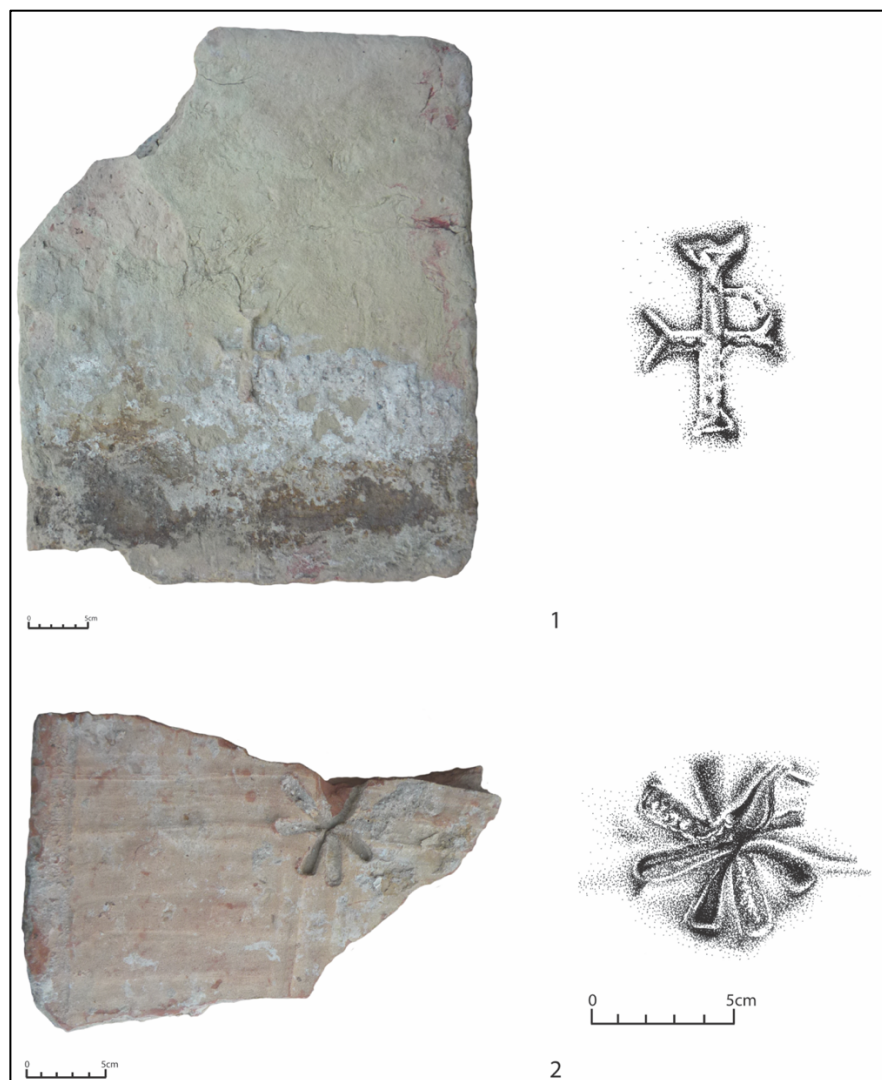

Suppl. Fig. 3. *Detail of the hypocaust pilae against the north wall of room II, looking north. (B. Shkodra-Rrugia.)*

Suppl. Fig. 4. *Finger-marked bricks, made with one finger (1) or two fingers (2). (Photos by B. Shkodra-Rrugia; drawings by G. Rrugia.)*

Suppl. Fig. 5. *Tool-made impressions: Greek cross (1) and Latin cross (2). (Photos by B. Shkodra-Rrugia; drawings by G. Rrugia.)*

Suppl. Fig. 6. Tool-made impressions: Christogram (1) and eight-armed star (2). (Photos by B. Shkodra-Rrugia; drawings by G. Rrugia.)

2. SUPPLEMENTARY CATALOG: THE BRICKS

The catalogue is organised by types, according to the impression technique. Within each type, subtypes are grouped according to the symbols and marks on the bricks. For each subtype, the mark/stamp version, inventory number and brick dimensions are provided. Dimensions are provided in the order “length x width x thickness”, in cm. For fragmentary examples, only the complete dimension is given.

TYPE 1: FINGER-MARKED BRICKS

1.1. Finger-marks made with one finger **Suppl. Fig. 4: 1**

Mark: two irregular circles and a wavy line traced 4.0 cm apart.

Inv. no: 2573

Brick dimensions/thickness: 3.7–4.0 cm

1.2. Finger-marks made with two fingers **Suppl. Fig. 4: 2**

Mark: one preserved concentric circle

Inv. no: 2583

Brick dimensions: 28.0 x 4.0 cm

TYPE 2: TOOL-MADE IMPRESSIONS

2.1 Four-armed cross

- a- Stamp: Greek cross with two intersecting impressions 5.8 cm long x 1.0 cm wide, with parallel-plain sides preceded by a square in relief.

Context: 089; Inv. no: 611

Brick dimensions/thickness: 4.5 cm

Suppl. Fig. 5: 1

- b- Stamp: Latin cross with two intersecting impressions 6.5 and 2.5 cm long, 0.5 and 0.4 cm wide with distinct splayed ends.

Inv. no: 2580

Brick dimensions: 35.0 x 4.5 cm

Suppl. Fig. 5: 2

2.2 Four-armed cross with bar monogram

- a- Stamp: Latin cross in relief, with splayed ends formed by small triangles. On the left side, 4.0 cm apart, is a horizontally impressed bar monogram. This consists of a central/horizontal arm bisecting a circle (O), perhaps producing Θ (theta) in ligature with O. In the center of the circle, in ligature with the horizontal arm, springs vertically one bar forming a lunate ϵ , whereas, the lower half of the circle forms a v.

Inv. no: 2576

Brick dimensions: 28.0 x 4.0 cm

Fig. 13: 1

- Stamp: Latin cross in relief, with splayed ends formed by small triangles. Below the vertical arm a triangular globule. On the left side, 3.5 cm apart, is a horizontally impressed bar monogram, identical to type 2.2a.

Inv. no: 2582

Brick dimensions: 28.0 x 4.0 cm

- b- Stamp: Latin cross in relief, with splayed ends formed by small triangles. On the left side, 3.5 cm apart, is a horizontally impressed bar monogram. This is similar to type 2.2a despite an extra arm springing downward forming a central cross.

Inv. no: 2578

Brick dimensions: 28.0 x 4.0/4.5 cm

Fig. 13: 2

- Stamp: Latin cross in relief, with splayed ends formed by small triangles. On the left side, 3.0 cm apart, is a horizontally impressed bar monogram, identical to type 2.2b.

Inv. no: 2577

Brick dimensions: 28.0 x 4.0/4.5 cm

- c- Stamp: Greek cross with two intersecting impressions, 5.0 and 4.5 cm long x 0.4 cm wide with distinct splayed ends, followed by a Γ (gamma).

Inv. no: 2579

Brick dimensions: 29.0 x 4.0 cm

Fig. 13: 3

2.3 Christogram

Stamp: Latin cross with two intersecting impressions, 6.0 and 3.6 cm long x 0.5 cm wide with distinct splayed ends and a rho on the right side.

Inv. no: 2581

Brick dimensions: 35.5 x 29.5 x 4.5 cm

Suppl. Fig. 6: 1

2.4 Eight-armed star

Stamp: four intersecting impressions, each measuring 6.5 x 0.9 cm, forming an eight-armed star. Parallel striations similar to finger-marks are also visible on the surface.

Inv. no: 2574

Brick dimensions/thickness: 3.7–4.0 cm

Suppl. Fig. 6: 2
