Genomic differentiation between swamp and river buffalo using a cattle high-density single nucleotide polymorphism panel

Lucia Pérez-Pardal, Shanyuan Chen, Vânia Costa, Xuehong Liu, Julio Carvalheira, Albano Beja-Pereira

Supplementary Material

Table S1. Description of samples used in this work. In the last column are indicated the groups used to perform the three-population test. Samples were assigned to group river_1, river_2 and swamp in base of PCA, admixture and mitochondrial data.

Subspecie	Population	Objective	Mitochondial lineage	Asigned group
B. bubalis bubalis	Binglangjiang	milk	river	river_1
B. bubalis bubalis	Binglangjiang	milk	river	
B. bubalis bubalis	Binglangjiang	milk	river	
B. bubalis bubalis	Binglangjiang	milk	river
