The following are regional and country-by country-assessments of the progress made towards achieving the goals laid out in the five priorities from the Hyogo Framework for Action for the time period 2009 – 2011. The five priorities are:

- **Priority 1:** Ensure that Disaster Risk Reduction is a National and a Local Priority with a Strong Institutional Basis for Implementation.
- **Priority 2:** Identify, assess and monitor disaster risks and enhance early warning.
- **Priority 3:** Use knowledge, innovation and education to build a culture of safety and resilience at all levels.
- **Priority 4:** Reduce the underlying risk factors.
- **Priority 5:** Strengthen disaster preparedness for effective response at all levels.

The county-by-country assessments of each priority are expressed in terms of levels of achievement for a set of core indicators which have been created for each priority. Each of the assessment summaries that follow are based on a 1 – 5 scale based on achievement levels defined as:

- 5** – Comprehensive achievement has been attained with sustained commitment and capacities at all levels.
- 4** – Substantial achievement has been attained with some limitations in key aspects, such as financial resources and/or operational capacities.
- 3** – Institutional commitment attained, but achievements are neither comprehensive nor substantial.
- 2** – Some progress, but without systematic policy and/or institutional commitment.
- 1** – Minor progress with few signs of forward action in plans or policy.

Regional High Level Summary

- On a regional basis, Europe was the only region that did not have a responding country with an achievement level of 1 in for any HFA priority.
- Africa had one or more responding countries with an achievement level of 1 for all of the core indicators in one or more of the HFA priorities. Guinea-Bissau had an achievement

level of 1 for all of the core indicators for Priorities 1, 2, 3, and an achievement level of 1 in 5 out of the 6 core indicators for Priority 4.

- The Americas, Asia, and Oceania had at least one responding country with an achievement level of 1 for a core indicator in 1 or more HFA priority.
