***Who cares? Pandemic Influenza risk perception
in urban populations of England and Wales***

***This questionnaire should take no more than 15
minutes of your time.***

Thank you.

Pandemic Influenza Risk Perception

Self-completed Questionnaire V6_200719

1. Current City

Mark only one oval.

- London
- Caerdydd/Cardiff

2. Please state the name of the GP Surgery/Medical Practice where you completed the questionnaire.

3. Please state the year you were born

4. Gender

Mark only one oval.

- Female
- Male
- Other
- Prefer not to answer

5. Highest education level? Please tick the highest qualification/closest equivalent level you have achieved currently.

Mark only one oval.

- GCSEs/O-levels
- NVQ level 1-2
- AS-levels/A-levels
- NVQ level 3/Advanced GNVQ/BTEC national
- Apprenticeship
- University degree e.g BA, BSc
- Higher degree e.g. MA, PhD
- NVQ 4-5/HND/HNC/BTEC higher level
- Professional qualifications e.g medical, accountancy, law, teaching
- Other vocational/work-related qualifications (Only mark if no equivalent level listed)
- No formal qualifications

6. **What is your current employment/job at the moment?**

Mark only one oval.

- Unemployed
- Retired
- Studying full-time (also use this option if your work and study and the study is the majority of your time)
- Employed
- Self-employed
- Full-time child carer

7. **If you are employed or self-employed, please state your full and specific job title. Such as 'car mechanic', chef, waiter**

8. **Do you work as a professional in a health-related field, such as a doctor, nurse, physiotherapist?**

Mark only one oval.

- Yes
- No

9. **If you are employed/self-employed, how do you normally travel to work? If you use more than one form of transport, please state whichever option takes the longest by distance.**

Mark only one oval.

- Work mainly at/from home
- Underground/metro/light rail
- Train
- Bus
- Taxi/Uber-type transport
- Motorcycle/scooter/moped
- Driving a Car, van, motorcycle
- Passenger in car, van or motorcycle
- Bicycle
- Walking/on foot
- Other, please state:

10. **How many people live with you in your household?**

Mark only one oval.

- I live alone
- 1 other person
- 2 other people
- 3 other people
- 4 other people
- More than 4 other people

11. **How many children (15 years or younger) live in your household?**

Mark only one oval.

- None
- 1 child
- 2 children
- 3 children
- 4 or more children

12. **Do you suffer from, or see a doctor for, any of these conditions?**

Tick all that apply.

- Breathing problems/lung disease e.g. COPD, Asthma
- Diabetes (Any type)
- Heart disease e.g. heart failure, previous 'heart attack', valve problems (Do NOT tick this box for high blood pressure only)
- Cancer (Any type) within the last 5 years
- A weak immune system (diagnosed by a doctor that needs regular treatment or follow-up)
- None of these

13. **Overall, how would you rate your own health over the past 4 weeks?**

Mark only one oval.

	1	2	3	4	5	
Very poor	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	Excellent

14. **Have you ever been admitted into hospital because you were sick with the flu?**

Mark only one oval.

- Yes
- No
- Unsure

15. **If yes to question 14, where you admitted into the intensive care ward (ICU/ITU/HDU)?**

Mark only one oval.

- Yes
- No
- Unsure

16. **Do you know any family, friends or colleagues that have been admitted to hospital because they were/are sick with the flu?**

Mark only one oval.

- Yes
- No
- Unsure

17. **Do you know of any family, friends or colleagues that have died from the flu?**

Mark only one oval.

- Yes
- No
- Unsure

18. **Have you heard of the term "Pandemic" before?**

Mark only one oval.

- Yes
- No
- Unsure

19. **If yes or unsure to question 18, which ONE explanation below fits best with what you think "pandemic" is?**

Mark only one oval.

- A very contagious/infectious disease
- A disease spreading through many countries, causing many people to become sick or die
- A disease that is causing many people to become sick or die in one country only
- A disease that happens every year

20. **Please give each of the following diseases a rating of 1(not at all) to 5 (Extremely dangerous) of how dangerous to your health you think they are.**

Please enter a number for every option

- TB (Tuberculosis)
- Seasonal flu
- Common cold
- Pandemic flu
- Antibiotic resistant infection e.g. MRSA
- Haemorrhagic diseases e.g. Ebola/Dengue
- Measles
- HIV

21. **Compare the chance of you getting sick with one of these conditions below to a person of the same age, gender and work as you. For each of the options use the rating from 1 (You have a significantly lower chance than someone else) to 5 (You have an extremely higher chance than someone else). [A rating of 3 would mean you have exactly the same chance as someone else in getting the disease].**

Please enter a number for every option

- TB
- Seasonal flu
- Common cold
- Pandemic flu
- Antibiotic resistant infection e.g. MRSA
- Haemorrhagic diseases e.g. Ebola/Dengue
- Measles
- HIV

22. **Have you had a flu vaccination within the last 5 years?**

Mark only one oval.

- Yes
- No
- Unsure

23. **If yes to question 22, have you had a flu vaccination within the last 2 years?**

Mark only one oval.

- Yes
- No
- Unsure

24. **If yes to question 23, have you received a flu vaccination in the last 12 months?**

Mark only one oval.

- Yes
 No
 Unsure

25. **How likely do you think it is that you will become sick with the flu this year (in 2019)?**

Mark only one oval.

1 2 3 4 5

Very unlikely Very likely

26. **How likely do you think it is that you will miss work because you/people that live you live are sick with the flu this year (in 2019)?**

Mark only one oval.

1 2 3 4 5

Very unlikely Very likely

27. **In general, do you think that people can take actions to prevent getting sick with the flu virus in case of a pandemic flu outbreak in the UK?**

Mark only one oval.

1 2 3 4 5

Not at all Definitely

28. **How confident are you that you yourself can prevent getting sick from the flu virus in case of a serious flu outbreak in the UK?**

Mark only one oval.

1 2 3 4 5

Not at all Definitely

29. **How much protection/immunity do you think the regular/seasonal flu vaccination would give you if a new serious flu outbreaks occurs?**

Mark only one oval.

1 2 3 4 5

None Full/Complete

30. **If a serious flu infection is beginning to spread around the world, how confident are you that the authorities in England and Wales will be able to respond/deal with it if/when it arrives in the UK?**

Mark only one oval.

	1	2	3	4	5	
Not at all confident	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	Certain

31. **If a new vaccine was developed for a serious, and previously unknown flu virus, how likely is it that you would get the vaccination (knowing that the vaccination is free of charge)?**

Mark only one oval.

	1	2	3	4	5	
Very unlikely	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	Definitely

32. **If a serious flu outbreak happens in many countries around the world (including the UK), which makes many people seriously ill and many of those who are infected die, where do you think you are more likely to catch the infection?**

Mark only one oval.

- Public transport e.g. trains, buses, trams
- At work
- In public areas of entertainment e.g. pubs, bars, restaurants, cinema
- In shops and supermarkets
- In hospitals or other medical centres
- At home with family and friends
- Airports and aeroplanes (Air travel)

33. **If you find yourself in the situation described in Q32, how likely are you to do any of the following things?**

Tick all that apply.

- Avoid public transport e.g. by walking, cycling or taking your own private transport
- Avoid air travel
- Avoid going out to entertainment areas
- Shop only for essential items
- Shop via online/home delivery
- Take absence from work (not go to work even if you or your family are not sick)
- Keep children out of school (even if school is still open)
- Limit contact with family and friends
- Avoid seeing doctors or visiting medical centres/hospitals, even if you are sick for any reason
- Stay indoors as much as possible
- Wear a mask
- Wash your hands more often than usual

34. **In the event a serious flu outbreak happens in many countries around the world (including the UK), which makes many people seriously ill and many of those who are infected die, which source would you be most likely to access and feel confident in the information you received?**

Mark only one oval.

- Facebook
- Twitter
- Other social media
- Newspapers
- Television News Broadcast
- Radio
- Internet search e.g Google
- Websites
- Blogs
- Face-to-face with a health professional
- Advice/information directly from Government bodies e.g. Public Health Agency
- Discussions with friends and family

35. **What would you find most important to know during the early stages of a serious flu outbreak that is affecting many countries around the world (including the UK)?**

Mark only one oval.

- How to recognise the symptoms of the disease
- How you can prevent getting the infection
- Where in the country/world the disease is
- The chance of catching the disease in the UK
- How the disease is treated
- The chances of dying if you catch the disease
- Other, please state

End of questionnaire. Thank you.

Please return the completed questionnaire to the collection area.

Complete the last page with your e-mail address should you wish to be contact with the completed study results.
