Online supplementary material
Traceplots of the Markov chain used to estimate the IgA response

Mean of Log(IgA) 180 days after infection

Mean of Log(IgA) 60 days after infection

Mean of Log(IgA) 30 days after infection

Std. dev. of Log(IgA) at 180 days after infection

Std. dev. of Log(IgA) at 60 days after infection

Std. dev. of Log(IgA) at 30 days after infection
